

Dear Ms. Kumar,

Thank you for your letter of 9 March, 2011. I am glad to learn about the various climate change projects and workshops your organization has been undertaking in various schools and colleges.

Your idea of sharing comments on how we are involved in safeguarding the future of our present generation is good. This can be seen in the various activities TERI's division "Educating Youth for Sustainable Development" has been actively involved in. All our projects are participatory in nature with adequate representation of children and youth at all stages of implementation—planning, execution, and monitoring thus empowering individuals both locally and globally with the requisite know-how in order to make choices towards a sustainable world.

With kind regards,

Yours sincerely,

R.K. Pachauri
